MRS. HALE GREAT NATIONAL WORK, Twenty-THREE Epitions of this popular work have slresdy been sold, and the demand still centinues

for Or. Life North And South.

By MRS. SARAH J. HALE.

Beautifully Illustrated.

"He who loves not his country can love nothing."

The intention of this deeply interesting novel is to illustrate the dignity of labor, and show the influence of American Institutions on the character of our people both North and South. It is a book for the Nation: nothing partition or sectional has swayed the mind of the authoress. Mrs. HALE is not tinged by any of the issue of the day, but is above any female writer of our country; a true representative of the noral dignity and granders of woman.

I SHAKSYERE AND HIS TIMES.

By M. Guizor. Author of "Corneille and his Times," Ilmo, muslin stoke \$1. The views presenced by Gaizottin this work are fruit of profound study and reflection. Acute, lost, and analysis, and he accomplishes his task with remarkable impartiality, treating the great English dramatist with a degree of justice which he has rarely enjoyed from Strench critics. The cessy is tollowed by a sorie sof noncess of the leading dramas, in which the principles of art which it maintains are more fully developed and dilustrated. As the deliberate judgment of one of the most discreet and intelligible writers in French literature, on numerons important questions of dramati art, it cannot full to form an acceptable contribution to the library of Shaksperian criticism.

IRON WORKS for SALE.—The PROVIDENCE IRON COMPANY, to close a concern, offer
for sale their very extensive and complete establishment for
manufacturing Iron, situated on tide water, at Fox Point, in
Pravidence.

These works have all been erected within seven years,
are in good order, and ready to be put into immediate operation, and are equal to the production of 24 truss of from into
plates and bars per day.

Connected with the above is a Wire Mill, capable of runming eight truns of rods per day, for which there is a regular
and increasing demand in Providence, at the present moment, at least equal to the cottre production of the mill.—
Also, Reynolds's Patent Wrought Spike and Nail Machines,
which will turn out ten tuns per day. Also, a Cut Nail Mill,
capable of turning out 130 to 175 casks per day, and which
could be easily arranged to double that product.

As this establishment was built for use, no expense was
spared in having everything about it of the most perfect
kind, and the inventory exhibits as complete an establishment, perhaps, as is to be found in New-England.

It is thought that no place in the United States presents a
better opening for the successful prosecution, by a practical
man, of the manufacturing district, requiring for consumption
the entire production of these works.

These works being on tide water, where the largest class
of vessels which frequent our bay, can load and receive
cargoes without lighterage, allows of their receiving their
supplies of coal and iron at the lowest rate of freight, and
labor can at all times be had on as good terms as classwhere
in New England.

As it is supposed the purchaser would desire to examino
the premises, further description is decented unnecessary.

For an examination of the property apply to Mr. W. H.
HENDERSON, on the premises, and for terms an application may be made to either of the subscribers, in Providence,
HENRY L. KENDALLE,

Providence, R. L., Dec. 16, 1362.
